## WORK EXPERIENCE

### American Express (Infosys Limited)

Specialist Programmer

Feb 2024 - Present

- Spearheaded the addition of **five new market offerings** for the **US region**, thoroughly tested and deployed them, resulting in a **20% increase in business revenue**.
- Collaborated in **Domain Chapter** and **ABM meetings** to discuss **high-level and low-level design considerations**, assessing solution impacts on the broader ecosystem.
- Contributed to a streamlined **global project**, integrating **multiple country-specific systems** into a **unified codebase**, significantly reducing the effort required to deploy new features across regions.
- Played a critical role in integrating the **US market into the shared codebase**, with an estimated **annual cost saving of \$200 million** for the organization.
- Acted as a founding member of a **new initiative team**, partnering closely with **managers and product owners** to establish team operations and strategy.
- Gained exposure to diverse roles, including **Product Owner, Agile Champion, and Tech Lead**, demonstrating comprehensive technical and leadership skills at an early career stage.
- Developed domain expertise in **credit card and payment systems**, enhancing solution design and implementation for financial services applications.

### Cognizant Technology

Programmer Analyst

Dec 2022 - Dec 2023

- Led the **development of proof of Concept (POC)** for new client applications, effectively researching, learning, and implementing diverse technologies to support seamless adoption by development teams.
- Conducted technical **demonstrations and presentations to key stakeholders** across departments, ensuring operational efficiency and team productivity through the adoption of emerging technologies.
- Successfully enabled the business to secure **\$20 million in client contracts**, meeting high-demand requirements for innovative technical solutions.
- Mentored and guided multiple internal teams in **modern tech implementations**, fostering a **culture of innovation and continuous learning** across the organization.
